    educational paper and poster abstracts, 121-126
    plans for 1997 conference, 134
    President's message, 113
    research paper and poster abstracts, 115-120
  web site, 186-188

Behavior
  changes in, in siblings of pediatric oncology patients, 3-14, 15-17
Bereavement

follow-up with a weekend family retreat *(abstract)*, 129-130
BMT, *see* Bone marrow transplantation
Bone marrow transplantation
enteral nutrition during intensive chemotherapy and, 68-72
nursing care for (special theme issue), 191-259
alternative donor sources, 213-227
ambulatory care issues, 228-238
clinical pathway for, 252-257
coping and support effects on, mothers' stress responses to, 202-212
novelty, familiarity, progress, and caring *(editorial)*, 191-192
prophylaxis for Epstein-Barr virus lymphoproliferative disease, 194-201
topical armamentarium for acute and chronic graft-versus-host disease, 239-251
transition from hospital to home care *(abstract)*, 131
Brain tumors, childhood
establishment of comprehensive clinic for *(abstract)*, 132-133

Canada, pediatric oncology nursing in
parents' needs during palliative care phase, 83-95
Cancer center
coordination of care between private pediatrician and *(abstract)*, 132
*see also* Hospitals
Cancer patients, *see* Patients
Cancer survivors, *see* Survivors
Cardiotoxicity
during chemotherapy, dexrazoxane protection against, 96-98
Catheters
swimming-related infections in central venous *(abstract)*, 119-120
Central venous catheter
swimming and infections of in child with cancer *(abstract)*, 119-120
Chemotherapy
assessment/management of mucositis due to, 164-174
glutamine-supplemented tube feedings versus total parenteral nutrition during intensive, 68-72
limiting cardiotoxicity during with dexrazoxane, 96-98
use of gowns when handling cytotoxic drugs *(abstract)*, 127
Child-rearing practices
of parents of children with and parents of healthy children, 53-67
*abstract*, 115-116
Children's Cancer Group (CCG)
developing intergroup nursing research, 135-136
Children, *see* Patients, pediatric oncology
Clinical pathway
for bone marrow transplant patients, 252-257
Clinical research
by a guest investigator, 45-48
Computers
APON web site, 186-188
Pediatric Oncology Web Resource *(abstract)*, 121-122
Concept analysis
of hope in adolescents with cancer, 73-80, 81-82
Conscious sedation
clinical practice protocol for, 33-42
Continuing education
alternative donor sources in pediatric bone marrow transplantation, 213-224
test, 225-227
assessment/management of chemotherapy-induced mucositis, 164-174
test, 175-177
conscious sedation, clinical practice protocol, 33-42
test, 43-44, 108-110
Coping strategies
mothers' stress responses to child's hematopoietic stem cell transplantation, 202-212
of siblings of pediatric oncology patients, 3-14, 15-17

Development
nurses' observations and theories on adolescent, 1-2
Dexrazoxane, 96-98
Discipline
by parents of children with cancer and parents of healthy children, 53-67
Donor sources
alternative, for pediatric bone marrow transplantation, 213-224
Drugs
use of gowns when handling cytotoxic *(abstract)*, 127
*see also* Chemotherapy *and* Pharmacology
Dying
Enough Trust to Talk About Coffins (Roadmaps), 106-107
My Lunch with Shondell (Roadmaps), 49-50
parents' needs during palliative care phase, 83-95

Education
for patient/family
booklet for parents of patients completing treatment *(abstract)*, 121
Pediatric Oncology Web Resource *(abstract)*, 121-122
for pediatric oncology nurses
needs of advanced practice nurses *(abstract)*, 124-125
nurse practitioner fellowship *(abstract)*, 123
*see also* Continuing education
Enteral nutrition
glutamine-supplemented tube feedings versus total parenteral nutrition, 68-72
Epstein-Barr virus lymphoproliferative disease
virus-specific cytotoxic T lymphocytes as prophylaxis, in pediatric BMT recipients, 194-201

Family, of pediatric oncology patient

bereavement follow-up with weekend retreat for *(abstract)*, 129-130
*see also* Parents *and* Siblings
Fathers, of pediatric oncology patients
support for grieving *(abstract)*, 124
*see also* Parents
Fellowships
pediatric oncology nurse practitioner program *(abstract)*, 123
Foley, Genevieve, RN, MSN
interview with, 95-105

Gowns
guidelines for handling cytotoxic drugs *(abstract)*, 127
Graft-versus-host disease
topical armamentarium in management of acute and chronic skin, 239-251
Grief
bereavement follow-up with weekend family retreat *(abstract)*, 129-130
helping grieving fathers *(abstract)*, 124
Guatemala, pediatric oncology nursing in
international partnership with U.S. *(abstract)*, 122-123
Guest investigators
challenges of clinical research for, 45-48

Hematopoietic stem cell transplantation
coping and support effects on mothers' stress responses to child's, 202-212
Home care
ambulatory care after pediatric bone marrow transplantation, 228-238
pediatric bone marrow transplant patients' transition to *(abstract)*, 131
Hope
concept of, in adolescents with cancer, 73-80, 81-82
Hospitals
bridging gap between ancillary departments and patients *(abstract)*, 125-126
establishing comprehensive pediatric brain tumor clinic *(abstract)*, 132-133
pediatric bone marrow transplant patients' transition to home care *(abstract)*, 131
*see also* Cancer center
Hypnosis
for children and adolescents with cancer (annotated bibliography), 27-32

Infections
swimming-related of central venous catheter *(abstract)*, 119-120
Instruments, pediatric oncology research
examining quality of life issues, 118
examining stress and adjustment, 178-185, 193
Insurance issues
coordination between cancer center and private pediatrician *(abstract)*, 132
International pediatric oncology nursing
Canada
parents' needs during palliative care phase, 83-95
Guatemala
partnership with U.S. nurses *(abstract)*, 122-123
international conference for nurse practitioners *(letter)*, 53
Sweden
life situation and problems reported by patients and parents, 18-26
parenting a child with cancer, 156-163
Internet
APON web site, 186-188
Pediatric Oncology Web Resource *(abstract)*, 121-122

Legends, living
Genevieve Foley, 99-105
introduction, 51
Leukemia, childhood
neurological effects of treatment and *(abstract)*, 130
*see also* Bone marrow transplantation
Life situation
children's and parents' reports of effects of cancer on, 18-26
Living legends
Genevieve Foley, 99-105
introduction, 51
Lymphoproliferative disease
Epstein-Barr virus, prophylaxis for in pediatric BMT recipients, 194-201

Media
APON web site, 186-188
Mothers, of pediatric oncology patients
coping and support effects on responses to child's hematopoietic stem cell transplantation, 202-212
siblings' behavior changes as described by, 3-14, 15-17
*see also* Parents
Mucositis
assessment/management of chemotherapy-induced, 164-174

Nadir experiences
of pediatric oncology nurses
patterns of *(abstract)*, 118-119
short- and long-term consequences *(abstract)*, 115
Neurological effects
of childhood leukemia and its treatment *(abstract)*, 130
Nurse practitioners
development of fellowship program *(abstract)*, 123
international conference for *(letter)*, 52
Nurses, pediatric oncology
helping grieving fathers *(abstract)*, 124
living legends
Genevieve Foley, 99-105
introduction, 51
meaning derived from profession by *(abstract)*, 117
partnership with Guatemalan nurses *(abstract)*, 122-123

peak and nadir experiences
long and short-term consequences *(abstract)*, 115
patterns of *(abstract)*, 118-119
use of gowns when handling cytotoxic drugs *(abstract)*, 127
Nutrition
glutamine-supplemented tube feedings versus total parenteral during chemotherapy, 68-72
guidelines for children with cancer *(abstract)*, 131-132

Observation, nursing
theories on adolescent development and, 1-2
Oral mucositis
assessment/management of chemotherapy-induced, 164-174
Outpatient care
after pediatric bone marrow transplantation, 228-238
Overprotectiveness
by parents of children with cancer versus parents of healthy children, 53-67

Pain
conscious sedation protocol for painful procedures, 33-42
Palliative care
parents' needs during, 83-95
Parents, of pediatric oncology patients
changes and challenges of parenting child with cancer, 156-163
child-rearing practices of, compared with parents of healthy children, 53-67
